

COUNCILMEMBER DONNA FRYE

City of San Diego
Sixth District

MEMORANDUM

08-34

DATE: September 24, 2008

TO: Mayor Jerry Sanders

FROM: Councilmember Donna Frye

SUBJECT: Mission Bay Unidentified Pollution

As you are aware I continue to be extremely concerned regarding the ongoing pollution in Mission Bay around Fiesta Island and DeAnza Cove and have brought my concerns to you and others in your administration. I have also offered my recommendations to protect the public and ways to determine the source of the pollution.

Attached are some pictures of the "material" washing up on the shoreline at Fiesta Island. In my many years of work on water quality issues, I have never seen anything that looks like the aforementioned material. Until such a time as it is identified and the waters in Mission Bay are determined to be free from contamination, I would strongly encourage, at a minimum, posting additional signs warning people of the shoreline contamination.

CC: Honorable City Councilmembers
Michael Aguirre, City Attorney
Jay Goldstone, COO
Andrea Tevlin, IBA
